

Flood Cleanup Assistance & Information

Flood Cleanup Steps:

1. Contact your private insurance to learn about your coverage.
2. Take photographs of flooded area, structural damage, personal property damage, where water is entering the building.
3. Create an inventory list of damaged property.
4. Dry out your home by opening doors, windows, cabinet & closet doors. Use fans and dehumidifiers to lower moisture.
5. Sort contents & discard waste according to your jurisdiction's trash collection guidelines.
6. Clean & disinfect all parts of home impacted by flood waters-walls, floors, closets, shelves, contents.
